# Educational Leadership for Institutional Effectiveness EDAS 5343

Version 1.0.1 Southern Wesleyan University Central, Charleston, Columbia, Greenville, Greenwood, Spartanburg, North Augusta South Carolina ©2010 by Southern Wesleyan University, P.O. Box 1020, 907 Wesleyan Drive, Central, SC 29630-1020. All rights reserved. No part of this syllabus may be used or reproduced without the written permission of Southern Wesleyan University.

#### Mission

Southern Wesleyan University is a private, Christian, non-profit institution and is affiliated with The Wesleyan Church. The university is governed by a Board of Trustees and seeks to accomplish the following institutional mission:

To help men and women become all God intends them to be through an excellent learning experience that promotes intellectual inquiry, fosters spiritual maturity, equips for service, and mobilizes leaders whose lives transform their world through faith, knowledge, love and hope as they serve Jesus Christ and others.

#### The School of Education Mission

"Educators who demonstrate scholarship within a Christian ethic of care"

#### **Conceptual Framework**

As scholars who demonstrate a Christian ethic of care through their actions, teachers [leaders] should exhibit a professional demeanor. As professional educators, they clarify objectives, ideas, and thoughts. They define the values that give direction to their lives and teaching. Individuals define themselves and their surroundings according to their attitudes, beliefs, and values (Rubin, 1985). As a consequence of living out what they know and what they believe, they instill confidence in others who may choose to follow. These individuals set the standards for the profession and give it direction. Guided by their attitudes, beliefs, and values, individuals with a clear sense of direction can change the climate of a school. Leadership candidates who demonstrate competence in meeting the requirements of the Program for Assisting, Developing, and Evaluating Principal Performance (PADEPP) performance standards, as well as Interstate New Teacher Assessment and Support Consortium (INTASC) Principle 10 (constituent relations), and the Educational Leadership Constituent Council (ELCC) standards can impact the school environment in a way that demonstrates the belief in the worth of each individual, the belief that all children can learn, and the belief that effective teaching can impact learning outcomes. Those whose leadership practices are aligned with the ELCC Standards and the School of Education's dispositions Principle 11 (a Christian ethic of care) can similarly influence the field of education within the context of their unique positions.

These elements – service to others, sensitivity to learners, reflective practice, and professional leadership – also permeate the conceptual framework as specific dispositions relating to a Christian ethic of care to self, learners, colleagues, and community. As Southern Wesleyan prepares teacher candidates to assume pivotal roles in America's public schools, the elements of the conceptual framework have been linked to the principles established by the Interstate School Leaders Licensure Consortium (ISLLC) and ELCC Standards. A leadership candidate's performance during internship is assessed using South Carolina's assessment standards as found in PADEPP. These standards are aligned with the ELCC Principles.

## **Teaching and Learning at Southern Wesleyan University**

As educators, we view teaching and learning as a complex endeavor relying upon what we know about how the human brain functions, how students develop cognitively, and how to arrange learning experiences accordingly. However, teaching is not formulaic or unproblematic. Teachers cannot view the learning process solely as an applied science because it is also a social practice. Human beings bring all sorts of emotional, psychosocial, and spiritual issues with them into the learning experience, which often cannot easily be identified or understood. For that reason, teaching is much like a dance between the applied science and the social practice—it is an art form that requires preparation, reflection, adeptness, practice, and prayer. This syllabus will help faculty and candidates as they engage in the complex learning enterprise.

## **Connection to the Mission of Southern Wesleyan University**

This syllabus is designed to assist instructors as they create an "excellent learning experience that promotes intellectual inquiry, fosters spiritual growth, equips for service, and mobilizes leaders whose lives transform their world..." As such, it should target not only the important things for candidates to know and be able to do in their chosen fields, but it should be intentional about helping candidates to develop deep understandings that will endure and the ability to critique their own assumptions, beliefs, and values.

## **Learning Teams**

Learning Teams are often a valued strategy used in the syllabi. However, the instructor reserves the right to organize homogeneous groups based on similar subject area concentrations or certification levels. In such cases, the homogeneous groups would facilitate cooperative learning based on the assigned activities.

#### Accreditation

Southern Wesleyan University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate, baccalaureate, and masters degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097 or call 404-679-4500 for questions about the accreditation of Southern Wesleyan University.

The teacher education programs at Southern Wesleyan University are accredited by the National Council for Accreditation of Teacher Education (NCATE), www.ncate.org. This accreditation covers initial teacher preparation programs and advanced educator preparation programs at the main campus in Central and all other learning centers operated by SWU. The university's teacher education programs are also approved by the South Carolina State Board of Education.

# **Educational Leadership for Institutional Effectiveness EDAS 5343**

## **Course Description**

Candidates will learn how to engage in authentic evaluation of the effectiveness of the instructional programs for student achievement of learning. They will be able to collect, interpret, and use quantitative and qualitative data from a variety of sources for school and district improvement.

#### **ENDURING UNDERSTANDINGS**

- 1. Leading a school requires a principal to build a repertoire of evaluation skills.
- 2. Evaluation must be based on collected and analyzed data.
- 3. Evaluation is a repetitive process that must be conducted on a regular basis.
- 4. Program adjustments and improvements must be based on the collection and evaluation of pertinent data.

## **Course Prerequisites**

There are no prerequisites for this course.

## **Course Learning Outcomes**

Upon successful completion of this course, candidates will know

- how to utilize a variety of sources of information and evaluation models in order to enhance student, teacher and school performance.
- how to facilitate the decision making process through evaluation of data.
- how to establish effective collaboration with stakeholders for school improvement.
- how to collaborate with school and district staff to plan and implement professional development activities that promote the achievement of school and district goals.
- how school culture and diversity impacts institutional programs and effectiveness.
- how to use available resources and opportunities for their own professional growth as well as for others.

## Course Learning Assignments and Assessments

#### **Grading Guidelines**

Assessments	Percentage
Annotated Analysis of Needs Assessment	15 %
School Report Card Analysis	10 %
Vision and Evaluation Alignment	15 %
Graphic Organizer for Evaluation Process	15 %
Case Studies and Discussions	10 %
Class Participation	10 %
School Improvement Project and Presentation	25 %
Total	100 %

#### Annotated Analysis of Needs Assessment - 15%

This paper must be between 1200-1500 words in length and must analyze the strengths and weaknesses of the candidate's current school. The analysis is an essential component of the School Improvement Plan. Each candidate should use the template in Appendix A to catalog his/her school's strengths and weaknesses. That assessment can then be used to write an analysis and determine possible solutions.

#### School Report Card Analysis - 10%

This paper should be between 1200-1500 words in length. The candidate should examine the demographics of his/her school and examine each grade level tested. Strengths and areas that need improvement should be discussed. The candidate should determine how the school report can help guide the School Improvement Plan. A bibliography should be included with the analysis.

#### Vision and Evaluation Alignment - 15%

This paper should be between 1000-1200 words in length and should align the present evaluation system with the vision statement. Each candidate should determine areas in which the evaluations do and do not align well with the vision. Candidates should identify deterrents to implementing the school vision and explore how the evaluations and the vision were established.

#### **Graphic Organizer for Evaluation Process - 15%**

This is a flowchart of the evaluation process with the evaluation process explained. The paper and the flow chart should be 3-5 pages in length. Candidates should identify the focus of the evaluation, data sources, types of evaluation, and projected targets. This flowchart should be the basis for the final evaluation project. The template used for the needs assessment should provide a basis for the final School Improvement Project.

### Case Studies and Discussions - 10%

Case study analysis is an effective means by which candidates are forced to think about institutional effectiveness related to school improvement issues. In case studies, candidates will analyze the evaluation in a scenario that is related to some course of action either undertaken or contemplated. In the analysis there will be an examination of all possible alternatives for action, how the choice of alternatives reflects institutional effectiveness, and how the chosen course of action impacts school improvement. In these activities, candidates will work in collaborative groups to identify the issues, explore the possible options available, the impact on the followers, and generally look at the complexity and ambiguity that accompany decisions regarding school improvement. When analyzing a case, candidates will explore possible courses of action and the implications for each.

## Class Participation - 10%

Class participation is a significant component of this course in terms of a grade but also in terms of what candidates will take from the course. The rubric in Appendix H outlines the expectations for class participation. In order to participate meaningfully, candidates must read the assigned material and come to class ready to discuss, raise questions, and contribute insightful commentary on the issues under discussion.

#### School Improvement Project and Presentation - 25%

This paper should be between 10-15 pages in length. The template is included in Appendix J. The School Improvement Project should be based on your School Report Card, the Needs Analysis, and the School and District Vision. Explanations of the areas for improvement should be provided in a summary at the end of the paper.

#### **Correlation Matrix**

Course Number	Course Name	SWU Leadership Standards	ELCC Standards	PADEPP Standards	SWU Learning Outcomes
EDAS 5343	Educational Leadership for Institutional Effectiveness	1 & 7	1 <del>.1, 1.2, 1.3,</del> <del>1.4, 1.5, 2.5,</del> <del>2.7, 2.8, 2.9,</del> <u>3, 4.1, 5.2,</u> <del>5.3, 5.4</del> , 6.3	2, 3, 4, 5, 6, 8, 9	1 - 10

For a list of all the ELCC standards, consult <a href="http://www.npbea.org/ELCC/ELCCStandards%20">http://www.npbea.org/ELCC/ELCCStandards%20</a> 5-02.pdf
For a list of all the ISLLC standards, consult <a href="http://www.ccsso.org/content/pdfs/elps">http://www.ccsso.org/content/pdfs/elps</a> isllc2008.pdf
For a list of all the SC PADEPP standards, consult <a href="http://ed.sc.gov/agency/Educator-Quality-and-Leadership/Leadership/old/pd/documents/adeppstandardsandcriteria.pdf">http://ed.sc.gov/agency/Educator-Quality-and-Leadership/Leadership/old/pd/documents/adeppstandardsandcriteria.pdf</a>
For a list of all SWULOs, please refer to the graduate student catalog.

## **Grade Equivalency Table**

The student's final grade will reflect the grading system adopted by Southern Wesleyan University. All grades are reported in a system of eleven letter grades designated as "A" thru "F" with appropriate plus and minus additions reflecting the following scheme:

Percentage Value	New Designation	Numeric value for GPA
100-96	A	4.0 – 3.9
95-93	A-	3.7
92-90	B+	3.4
89-87	В	3.0
86-84	B-	2.7
83-81	C+	2.4
80-78	С	2.0
77-75	C-	1.7
74-73	D+	1.4
72-70	D	1.0
Below 70	F	0.0

#### WRITTEN REPORT GUIDELINES

The following guidelines should be used for written reports submitted by individuals or learning teams:

- The length of the report will be determined by the faculty member.
- The report should be typed, double-spaced, front side only, in Times New Roman 12-point font. Titles, etc., can be in a larger font size.
- Candidates must follow APA format for proper grammar, spelling, sentence/paragraph structure, and footnote or endnote structure. All cases are to be written in the third person as a professional paper.
- A cover sheet should include the candidate's name, course number, the report title, faculty
  member's name, and the date submitted. A hardback cover for the report is not required.
- Titles for each section may be used if the candidate desires.
- The learning team report is to
  - outline and discuss the relevant issues/problems underlying the topic, including historical comments if desired.
  - present opposing/alternative views concerning the issues.
  - generate creative solutions that are original, not someone else's.
  - present the learning team's synthesis or proposed position concerning the issue in a logical manner.
  - contain accurate and complete data.
- The report is not to consist of separate papers put together to make one larger report. Instead, it should represent the results of the learning team's research and thinking together about the issue and coming to conclusions concerning possible solutions. Obviously, individuals in the team will be given specific tasks by the learning team.
- Each learning team member is to participate in the preparation and presentation of the report.

#### **ORAL PRESENTATION GUIDELINES**

The following guidelines should be used for oral presentations by learning teams or individuals:

- The length of the presentation(s) will be determined by the faculty member. For learning team
  presentations, each member of the team will participate. The team will always ask for questions
  when the full presentation is complete and allow additional time for questions. One mark of a
  good presentation is that it adheres to the allocated time.
- Individual portions of the learning team presentations will vary in length. Each member should complete his/her individual part of the presentation within the allotted time.
- Presentations should not be read to the audience. Students should use key words as an outline of
  the subject and then present key words on transparencies, the class chalkboard, flip charts, or
  PowerPoint.
- Charts, graphs, and drawings get attention and are usually better understood than text or textstyle printed material.
- In this course (and all others), oral presentations are used to sell the audience on the report.
- The following is a list of factors that are important when making a presentation.
  - 1. Quality of presentation
    - a. Eye contact
    - b. Expression
    - c. Use of notes
    - d. Proper diction
    - e. Clear and audible speech
  - 2. Quality of argument
    - a. Validity of the arguments
    - b. Evidence of research/knowledge
    - c. Forcefulness
  - 3. Appearance
  - 4. Enthusiasm

## **TEXTBOOKS**

Schmoker, M. (2006). Results now: How we can achieve unprecedented improvements in teaching and learning. Alexandria, VA: Association for Supervision and Curriculum Development.

Winters, L. & Herman, J. (2011). *The turnaround toolkit: Managing rapid sustainable school improvement.* Thousand Oaks, CA: Corwin Press.

## **TECHNOLOGY REQUIREMENT**

In EDAS 5343, the following technology is integrated into the instruction to demonstrate to candidates how the technology can be incorporated into the curriculum: Promethean/Smart Boards, PowerPoint, the Internet, audio CD, video DVD, VHS clips, and on-line information exchange. Candidates are in turn encouraged to use available technology in their presentations.

## **EDAS 5343 - SESSION ONE**

Assignments/Assessments

Objectives

•			
Essential Question	<u>Prior</u> to Session One, each candidate will		
Why is evaluation for institutional effectiveness necessary in the school setting?  Objectives  Candidates will be able to  develop a new understanding of educational leadership that places a priority on evaluation of the effectiveness of instructional programs.  analyze the scope of evaluation activities related to the role of the principal.  understand how federal laws impact institutional effectiveness.	<ol> <li>read Part I, Ch. 1-3, in <i>The TurnAround Toolkit</i> and Ch. 1 in <i>Results Now.</i></li> <li>consider his/her school setting and develop a list of ten assessments for the school. Each candidate will write an Annotated Analysis of Needs Assessment detailing how the evaluation is conducted and how the information is used, specifically: whether the evaluation was summative or formative; whether the evaluation could be strengthened. Each candidate should have a list of ten evaluations that are conducted at his/her school. This paper will be submitted during Session One. Each candidate will also discuss his/her findings in a group setting during class. Some areas to consider will be:         <ul> <li>Student Achievement Principal School Improvement Council Teachers Staff Members</li> <li>School Report Card Transportation System School Facilities School Safety Communications Budget Communications Budget Public Relations Communications Professional Development</li> </ul> </li> <li>after reading Ch. 1 of <i>Results Now</i>, get together in groups and list the obstacles that prevent schools and communities from seeing instruction and supervision as it really is. Groups will explain each item on the list.</li> <li>discuss the potential and the limitations of evaluation. They will identify some restrictions for evaluation that could be found at their individual schools and determine what causes these restrictions.</li> <li>in light of "No Child Left Behind" and academic standards, tell how performance measurement or standards-based evaluation has influenced his/her school. He/she should also share how evaluation measures used at individual schools are useful.</li> <li>examine aspects of the "No Child Left Behind" mandate.</li> <li>prepare to turn in the Annotated Analysis of Needs Assessment during Session Two.</li> </ol>		

## **EDAS 5343 - SESSION TWO**

Objectives	Assignments/Assessments
Essential Question	Prior to Session Two, each candidate will
What would be the most effective evaluation models for institutional effectiveness in your school setting?  Objectives  Candidates will be able to:  develop a new understanding of educational leadership that places a priority on evaluation of the effectiveness of instructional programs.  analyze the scope of evaluation activities related to the role of the principal.	<ol> <li>read Part I, Ch. 4-6 in <i>The TurnAround Toolkit</i> and Ch. 2 in <i>Results Now.</i></li> <li>locate the School Report Card for his/her school and write a School Report Card Analysis. This paper will be turned in during Session Two. The candidate will also discuss his/her findings in a group setting with the learning team before class and with other groups during class.</li> <li>describe how decisions about programs are typically made in his/her school. What evaluation might work in the school? Each candidate will be prepared to explain his/her reasoning. What other approached might be useful?</li> <li>read the Session Two case study in Appendix K and prepare to discuss the study in class.</li> <li>read the article "Driven Dumb by Data?" by Marge Scherer in <i>Educational Leadership</i>, 66/4, p. 5. Each candidate should prepare to discuss the implications of the article, using this link: http://www.ascd.org/publications/educational_leadership/dec08/vol66/num04/toc.aspx.</li> </ol>

## **EDAS 5343 – SESSION THREE**

Objectives	Assignments/Assessments
Essential Question	Prior to Session Three, each candidate will
What components would provide the most effective steps for institutional effectiveness in the school setting?  Objectives  Candidates will be able to:  develop a new understanding of educational leadership that places a priority on evaluation of the effectiveness of instructional programs.  recognize the variety of sources of information and evaluation models that can be used to enhance student, teacher and school performance.  develop a view of the school as part of the total educational system.  understand how to facilitate the decision making process through evaluation of data.  understand how state laws impact institutional effectiveness.	<ol> <li>read Part I, Ch. 7-9 in <i>The TurnAround Toolkit</i> and Ch. 3 in <i>Results Now</i>.</li> <li>consider his/her school setting and how it relates to the vision statement. Each candidate should write a Vision and Evaluation Alignment for his/her school. This paper will be turned in during Session Three. Candidates will discuss their findings in learning teams before class and with other groups during class.</li> <li>read the Session Three case studies in Appendix K and prepare to discuss them in class.</li> <li>read the article "Answering the Questions That Count" by David Ronka, Mary Ann Lachat, Rachel Slaughter, and Julie Melt in <i>Educational Leadership</i> 64/4, pp. 18-24. Candidates will prepare to discuss the implications of the article, using the following link: http://www.ascd.org/publications/educational_leadership/dec08/vol66/num04/toc.aspx.</li> <li>examine the South Carolina Education Accountability Act, found at http://www.scstatehouse.gov/ CODE/ t59c018.htm.</li> </ol>

## **EDAS 5343 - SESSION FOUR**

Objectives	Assignments/Assessments	
Essential Question	Prior to Session Four, each candidate will	
What issues could affect the selection of an effective evaluation model for institutional effectiveness in your school setting?  Objectives  Candidates will be able to  develop a new understanding of educational leadership that places a priority on evaluation of the effectiveness of instructional programs.  recognize the variety of sources of information and evaluation models that can be used to enhance student, teacher and school performance.  develop a view of the school as part of the total educational system.  understand how to facilitate the decision-making process through evaluation of data.	<ol> <li>read Part II, Ch. 1-2, in <i>The TurnAround Toolkit</i> and Ch. 4 in Results <i>Now.</i></li> <li>examine his/her school setting and design a graphic organizer detailing the evaluation process. This paper will be turned in during Session Four. Candidates will also discuss findings with their learning team before class and with other groups during class. The process should include Vision, Evaluation Objective, Information Sources and Collection, Information Collected, Information, Modification. Specifics for the process should be included.</li> <li>read the article "Student-Driven Research" by Makeba Jones and Susan Yonezawa in <i>Educational Leadership</i>, 66/4, pp. 65-69. Candidates will prepare to discuss the implications of the article, using the following link: http://www.ascd.org/publications/educational_leadership/dec0_8/vol66/num04/toc.aspx.</li> <li>prepare a list of 10 programs in your school that will be evaluated. Which programs should have an outside evaluator? Why? Which programs should have an internal evaluator? Why? Which programs should have an internal evaluator? Why?</li> <li>prepare a group of stakeholders in his/her school for an interview with the SACS team. Determine a list of questions that they might be asked. What are the steps that you would take to prepare the stakeholders for the visit?</li> </ol>	

## **EDAS 5343 - SESSION FIVE**

Objectives	Assignments/Assessments		
Essential Question	Prior to Session Five, each candidate will		
What issues could affect the use of the data for institutional effectiveness in your school setting?  Objectives  Candidates will be able to  develop a new understanding of educational leadership that places a priority on evaluation of the effectiveness of instructional programs.  recognize the variety of sources of information and evaluation models that can be used to enhance student,	<ol> <li>read Part II, Ch. 3-4 in <i>The TurnAround Toolkit</i> and Ch. 8 in <i>Results Now.</i></li> <li>complete the graphic organizer detailing the steps for the School Improvement Project. Each candidate should have at least five objectives to assess. He/she will now determine the best evaluation method to use based on the methods studied. Obviously, candidates will not be able to complete the assessment within the time allowed for this course. However, this structure will give a working outline for an assessment plan within in the local school setting. Candidates should note whether the evaluation is summative or formative; whether the evaluator(s) are internal or external; and how the evaluation could be strengthened. Candidates will also write a two-page rationale supporting their decisions on the assessments for the objectives. Each candidate should have completed the assessment objectives by Session Five. Each candidate will also discuss his/her findings in a group setting with the learning team before class and with others in class. The framework example can be found in Appendix J.</li> </ol>		
used to enhance student, teacher and school performance.  develop a view of the school as part of the total educational system.  understand how to facilitate the decision-making process through evaluation of data.  conceptualize an appropriate code of ethics with regard to data and evaluation that reflects a Christian ethic of care.	can be found in Appendix J.  During Session Five, candidates will  1. read and discuss the following: a. A SACS team will visit your school in one year. You are the leader of the school SACS team. What school evaluation plan would you use for the SACS visit? Why? b. Consider a program at your school that is controversial. Which design or mix of designs would be most appropriate to use to assess this issue? Determine the evaluation question(s) your design would answer. c. Consider the problem of teacher turnover in your school. Develop a design model to study this problem. Determine a casual, intervention, and action hypothesis. What are some other steps would you take in your model? 2. read the following article and prepare to discuss its implications: 'Raising the Bar at Furness High" by Robert E. Slavin, Gwen Carol Holmes, and Cecelia Daniels in Educational Leadership, 66/4. http://www.ascd.org/publications/educational leadership/dec08/vol66/num04/toc.aspx		

## **EDAS 5343 - SESSION SIX**

Objectives	Assignments/Assessments
Essential Question P	rior to Session Six, each candidate will
How would you plan an effective evaluation model for institutional effectiveness in your school setting?  Objective  The candidate will be able to  develop a new understanding of educational leadership that places a priority on evaluation of the effectiveness of instructional programs. recognize the variety of sources of information and evaluation models that can be used to enhance student, teacher and school performance. develop a view of the school as part of the total educational system. understand how to facilitate the decisionmaking process through evaluation of data. develop an appropriate code of ethics with regard to data and evaluation that reflects a Christian ethic of care. develop proficiency in	read Part II, Ch. 5-7 in <i>The TurnAround Toolkit</i> and Ch. 9 of Results <i>Now.</i>

## **EDAS 5343 - SESSION SEVEN**

Objectives	Assignments/Assessments
Essential Question P	Prior to Session Seven, each candidate will
a necessity?  Objectives  Candidates will be able to  develop a new understanding of educational leadership that places a priority on evaluation of the effectiveness of instructional programs.  recognize the variety of sources of information and evaluation models that can be used to enhance student, teacher and school performance.	Chapter 10 in <i>Results Now.</i> complete, upload, and submit the School Improvement Project in Chalk and Wire.  prepare a short (5-7 minute) synopsis of his/her School Improvement Project to present to the class, articulating progress in terms of having a defensible evaluation project, progress in assuming leadership roles that call for decision making, and evaluation based on the data.  Upload your Evaluation Project and submit to Chalk and Wire.  prepare to evaluate the course and the instructor based on: expectations for the course, relevance to future goals, clarity of presentation, and the knowledge and understanding exhibited by the instructor.  During Session Seven, each candidate will  discuss the relationship between caring and fairness, understanding that tension can exist between the two. present a short (5-7 minute) synopsis of his/her School Evaluation Project to the class, articulating progress toward having a defensible evaluation project, preparations to assume leadership roles that call for decision making, and evaluations based on the data.

## Course Policies and Miscellaneous Information

## **Attendance Policy**

Face to face sessions are held once a week for four hours, and attendance is mandatory. At these sessions, the entire class meets with the facilitator who maintains attendance records and submits the records to the AGS office.

Attendance in distance learning courses is based on the completion of at least one designated assignment by the due date/time posted within the course site for each session. Distance learning activities may include lecture, assignments, readings, forums, and assessments (e.g. quizzes, tests).

Hybrid courses are a combination of online and classroom activities. Students are expected to attend all campus class meetings as well as to adhere to posted online deadlines for assignments. Classroom attendance will be taken in class by the instructor. Online attendance is based on completion of at least one designated assignment by the due date/time posted within the course site for each session. Online activities may include lecture, assignments, readings, forums, and assessments (e.g. quizzes, tests).

A pattern of absences is unacceptable and will be dealt with in the manner stated below. By agreement with the facilitator, one session during an individual course may be missed if work is made up. The absence must be reflected in the class participation portion of the student's final grade. There is no provision for a student to miss more than 25% of the sessions in any one course. In most cases, missing more than one session exceeds the 25% limit. Any student who misses more than 25% of the sessions for any course shall receive a grade of F or No Credit for that course and shall be required to repeat the course at their expense.

## **Academic Integrity**

Honesty in all matters - including honesty in academic endeavors - is a valued principle at Southern Wesleyan University. Members of this community of learners (students, faculty, staff, and administrators) are expected to treat each other as honorable until this trust is betrayed. Any form of academic dishonesty (including cheating, plagiarism, and falsification of documents) constitutes a serious breach of trust. No form of academic dishonesty will be tolerated.

If a student has cheated, that student should voluntarily come forward and confess. If the student does so, the penalty is a failing grade of F on the work involved. If the student admits guilt only after being confronted, the penalty is both a grade of F on the work involved and a 10% grade reduction in the course. If a faculty member is convinced that a student has cheated and the student does not admit the offense, the faculty member may assess a grade of NC or F for the course. (See Grade Appeal Procedure of the AGS Handbook for additional information.) Plagiarism (the use of another's material, methods, or ideas without giving the originator proper credit) and fabrication (forging or inventing information) are special forms of cheating. It is the responsibility of each student and faculty member to properly follow the Modern Language Association (MLA) or the American Psychological Association (APA) style of documentation to avoid plagiarism. Any student found guilty of plagiarism or fabrication will receive a grade of F as outlined in the paragraph above. Academic dishonesty outside the context of a course will be dealt with in a manner appropriate to the situation. The penalty may include expulsion from the university, and, in cases of fraud, appropriate legal action. Appeals in these cases will be heard by the provost with final appeal to the Academic Council.

## **Accommodations for Students with Disabilities**

Accommodations can be made for students with disabilities, as outlined in "Services for Students with Disabilities," at <a href="http://mycampus.swu.edu">http://mycampus.swu.edu</a>. Any student desiring accommodations must send the request and all documentation to the Student Services Coordinator at the learning center where he/she attends classes. The Student Services Coordinator will forward the materials to Martha Mishoe (<a href="mailto:mmishoe@swu.edu">mmishoe@swu.edu</a>), Coordinator of Student Learning Services for Southern Wesleyan University.

## Appendix B

## **Needs Assessment Rubric**

Competency	Advanced 4 Points	Proficient 3 Points	Basic 2 Points	Unsatisfactory 1 Point	Score
Competency 1 ELCC 1.1. The needs are based on data collected from a variety of sources (administrators, teachers, students, parents).	All the listed sources are included in identifying the need, and data are present.	Most of the listed sources are included in identifying the need, and data are present.	Two of the listed sources are included in identifying the need, and data are present.	None of the listed sources are included in identifying the need, and data are present.	
Competency 2 ELCC 1.3. The perceptual observational needs assessment data are used based on an adequate sample of groups. Competency 3	All of the sample sizes are superior.	Most of the sample sizes are adequate with no unacceptable sample sizes.	Most of the sample sizes are adequate with only one unacceptable sample size.	No information is provided about the sample size. No samples were taken, or two or more of the sample sizes are unacceptable.  Student and	
ELCC 1.4. The needs assessment incorporates student performance, attitudinal behaviors, and longitudinal information.	school level data are provided from all four listed types of data.	school level data are provided from all three listed types of data.	school level data are provided from two listed. Several of the contributing factors related to strengths and weaknesses are presented in the analysis which is based on an accurate interpretation of the data.	school level data are provided from just one listed type of data.	
Competency 4 ELCC 1.5. The needs assessment data are accurately interpreted to identify strengths and weaknesses.	All of the strengths and weaknesses are based on an accurate interpretation of the data.	The majority of the strengths and weaknesses are based on an accurate interpretation of the data.	Several of the strengths and weaknesses are not based on an accurate interpretation of the data.	No strengths or weaknesses are based on an accurate interpretation of the data.

## **Appendix C**

## **Vision and Evaluation Alignment Paper**

**ELCC STANDARD 1.0:** A building-level education leader applies knowledge that promotes the success of every student by collaboratively facilitating the development, articulation, implementation, and stewardship of a shared school vision of learning through the collection and use of data to identify school goals, assess organizational effectiveness, and implement school plans to achieve school goals; promotion of continual and sustainable school improvement; and evaluation of school progress and revision of school plans supported by school-based stakeholders. Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by facilitating the development, articulation, implementation, and stewardship of a school or district vision of loarning curporated by the school community.

promote the success of all students by facilitating the development, articulation, implementation, and stewardship of a school or district vision of learning supported by the school community.

## Appendix D

# School Report Card Analysis Rubric

	Level 4	Level 3	Level 2	Level 1
	Advanced	Proficient	Basic	Below Basic
INTRODUCTION	very clearly highlights main points to follow (without providing details)     contains all main points of School Report Card	very clearly highlights most of the main points to follow (without providing details)     contains most of the main points of School Report Card	some overview of main points presented     touches on the main points of the School Report Card	main points to follow not clearly presented     choppy flow     does not touch on main points of the School Report Card
CONTENT Fact Base	facts are of sufficient number to provide highly effective support     facts are consistently detailed/precise and very relevant     excellent variety of resources used and highly effective blending of sources within paragraphs and essay	facts provide substantial support     facts are detailed/ precise and relevant     good variety of resources used and     good blending of sources within essay	facts provide some support     lacking details and examples to     support arguments     some variety of sources used but     more blending of sources needed	very few facts provided     more specific details and examples needed to support opinions     vague     limited variety of sources used and very poor blending of sources
CONTENT Depth/Analysis	facts are consistently linked to thesis with highly effective explanations     contains examples of critical thinking     complex understanding of topic demonstrated	facts are generally linked to thesis with effective explanations     solid understanding of topic demonstrated     additional analysis in places would strengthen arguments	connections between ideas and facts not always made     more analysis/explanation needed     facts may appear to be 'listed'	connections between ideas and facts not made     depth to argument lacking; more explanation of facts needed
STYLE Spelling & Grammar Organization & Flow	correct spelling and grammar used effectively almost all of the time     complex sentence structure and sophisticated vocabulary used consistently     highly effective topic and concluding sentences (consistent, clear links to thesis) and paragraph structure     very well organized and smooth transition from one idea to the next	spelling and grammar used with considerable accuracy and effectiveness     attempts shown at using complex sentence structure and sophisticated vocabulary     strong topic and concluding sentences and paragraph structure     well organized and good flow from one idea to the next	spelling and grammar require moderate editing     topic and concluding sentences included but need to be more directly linked to thesis     paragraph structure poor in places     choppy in places	spelling and grammar require considerable editing     some topic and concluding sentences appear to be missing     paragraph structure unclear     choppy in places     much more consideration of organization required
CONCLUSION Restatement of Thesis Style & Format	very nicely restates thesis     clear summary of main points     presented (with no new data added)     thoughtful expansive application     offered     smooth flow of summary points	nicely restates thesis     clear summary of main points     presented (with no new data added)     expansive application offered     fairly smooth flow of summary points	thesis restated but somewhat unclear/poorly worded summary of main points unclear or incomplete expansive application weak choppy flow between summary points	thesis not restated     summary of arguments not provided     elements of concluding paragraph     missing
DOCUMENTATION	demonstrates great attention to detail of proper footnotes/endnotes     demonstrates great attention to format of bibliography	demonstrates good attention to detail of proper footnotes/endnotes     demonstrates good attention to format of bibliography	demonstrates some attention to detail of proper footnotes/endnotes     demonstrates some attention to format of bibliography	demonstrates limited attention to detail of proper footnotes/endnotes     demonstrates limited attention to format of bibliography

## **APPENDIX E**

	GRAPHIC ORGA	NIZER AND FLOV	VCHART RUBRIC	
Criteria	4 Advanced	3 Proficient	2 Below Basic	1 Basic
Organization	extremely well organized; order and structure of information is compelling; flows smoothly	organized structure allows reader to move through content without confusion; flows smoothly	somewhat organized structure allows reader to move through some of the content without confusion; flow is sometimes interrupted	poorly organized; a clear sense of direction is not evident; flow is frequently interrupted
Content	thorough and insightful understanding of school evaluation	complete understanding of school evaluation	shows some understanding of school evaluation	shows incomplete understanding of school evaluation
Creativity	enthusiastically uses materials and ideas for improvement	uses materials and ideas for improvement	shows some use of materials for improvement	shows minimal effort for school improvement
Ideas	insightful and well considered ideas making multiple connections	ideas are considered; more than one thoughtful connection is made	ideas are somewhat on topic; makes some connections	ideas are unclear; few connections

## Appendix F

		Presentation Rubr	ic	
Candidate Name	·			
CATEGORY	Proficient (4)	Advanced (3)	Basic (2)	Below Basic (1)
Content	Shows a full understanding of the topic.	Shows a good understanding of the topic.	Shows a good understanding of parts of the topic.	Does not seem to understand the topic very well.
Preparedness	Student is completely prepared and has obviously rehearsed.	Student seems pretty prepared but might have needed a couple more rehearsals.	The student is somewhat prepared, but it is clear that rehearsal was lacking.	Student does not seem at all prepared to present.
Speaks Clearly	Speaks clearly and distinctly all (100-95%) the time, and mispronounces no words.	Speaks clearly and distinctly all (100-95%) the time, but mispronounces one word.	Speaks clearly and distinctly most (94-85%) of the time. Mispronounces no more than one word.	Often mumbles, cannot be understood or mispronounces more than one word.
Posture and Eye Contact	Stands up straight; looks relaxed and confident; establishes eye contact with everyone in the room during the presentation.	Stands up straight; establishes eye contact with everyone in the room during the presentation.	Sometimes stands up straight and establishes eye contact.	Slouches and/or does not look at people during the presentation.
Listens to Other Presentations	Listens intently; does not make distracting noises or movements.	Listens intently but has one distracting noise or movement.	Sometimes does not appear to be listening but is not distracting.	Sometimes does not appear to be listening and has distracting noises or movements.
Candidate			l Final	o. movements.

# Appendix G Case Study Assessment Rubric

*Instructions*: The following assessment items are based on the ELCC Standards. Your assistance is being requested to provide evidence that the respective candidate is meeting each of these propositions at this stage in their educational experience. Please indicate the candidate's rating in relation to each of the principles using the scale below.

Criterion	Below Basic (1)	Basic (2)	Proficient (3)	Advanced (4)	Score
Identification of the Main Issue/Problem	Identifies and understands evaluation issues that form the basis of the case but only on a superficial basis.	Indentifies and understands some of the evaluation issues that are presented in the case.	Identifies and understands most of the main evaluation issues presented in the case.	Identifies and understanda all evaluation issues that form the case and can discuss them in depth.	
Analysis of the Issues	Incomplete analysis of the evaluation issues presented in the case.	Superficial analysis of some the evaluation issues presented in the case.	Thorough analysis of most of the the evaluation issues in the case	Insightful, thoughtful and thorough analysis of all the the evaluation issues presented in the case.	
Comments on Effective Solutions /Strategies	There is little or no action suggested for the main character(s) or inappropriate solution to all the issues presented in the case.	Superficial and /or inappropriate solutions to some of the the evaluation issues in the case.	Approproiate, well- thought-out comments about solutions, or proposals for solutions to most of the the evaluation issues in the case.	Well documented, reasoned and philosophically appropriate comments on solutions, or proposals for solutions, to all the evaluation issues presented in the case.	
Links to Course Readings and Additional Research	Incomplete research and linkage to the readings and class discussions.	Limited research and documented links to the readings or class discussions.	Good research and documented links to the readings for the course or class discussions.	Excellent research into the issues with clearly documented links to the readings, class discussion and outside reading.  Final (Sum/4)

## Appendix J

### **The Evaluation Project**

Each academic major and program must have an assessment plan that includes articulation of a mission statement for the major/program, outcomes objectives for the major/program, and a brief description of assessment mechanisms that will be used to determine progress in meeting the objectives. A carefully written assessment plan serves as the foundation for all assessment activity. Nevertheless, it can be modified at any time as decisions are made to sharpen or extend the mission and/or as program objectives and assessment mechanisms are modified.

### The Mission Statement

Each school must have a mission statement. The statement should follow these guidelines:

- (1) The mission statement should specify the purpose of the institution.
- (2) The mission statement should be an extension of the District's Statement of Purpose, Standing Goals, and Curriculum Goals; it should make clear how the school contributes to the mission and goals of the District.
- (3) The mission statement should be succinct but should be sure to include the essential mission of the school (rather than the mission of any individual faculty member or program). Most statements are about 1 3 paragraphs in length.

### **Example of a Mission Statement (from the General Education Program)**

Greenlawn Middle School seeks to provide students with a broad base of knowledge and skills that will prepare them for productive lives as individuals and as members of communities. This includes a broad and diverse basis of knowledge, an understanding of the fundamental features of human life and culture, and the ability to reason and communicate effectively.

In order to fulfill this mission, Greenlawn Middle School aims to develop in students a sound, broad intellectual foundation, including the ability to think logically, analytically, and creatively, and to make judgments and evaluations as a result of that process. It also provides an understanding of our world, including a sound historical perspective, an appreciation for diverse cultures, an aesthetic awareness and appreciation, and the ability to communicate effectively. The school helps students to develop an integrated, mature perspective, including an understanding of the interrelationships among various disciplines, a set of ethical values, and a commitment to lifelong learning.

Greenlawn Middle School provides students with effective mathematical skills, knowledge of the potential capabilities of computer technology, and knowledge of scientific and social scientific methodology and contributions. It also promotes an awareness of the importance of mental and physical well-being, the ability to assume new tasks and to adapt to changing realities, and the ability to function effectively, both independently and in groups.

Does this statement identify the contribution of Greenlawn Middle School to the District? Yes. Does this statement relate to the District's Statement of Purpose, Standing Goals, and Curriculum Goals? Yes. Is this statement succinct? Yes.

### The Program Objectives

Outcomes objectives must be in place for each academic major/program. The objectives should follow these guidelines:

- (1) The objectives should state the key standing (continuing) aims for the major/ program. They should include the knowledge, skills, attitudes, behaviors, and achievements expected of students in the program
- (2) The objectives should do the following:
- (a) Include an action verb and a statement of ability. Use meaningful verbs: better objectives use action verbs like "paraphrase," "compute," "describe," and "construct"; poorer objectives use verbs that are too general like "understand" and "appreciate."
- (b) Involve objectives that can be operationalized and are empirically verifiable/directly observable.
- (c) Are attainable or feasible given the resources of the major/program.
- (d) Clarify or establish a link between what students accomplish in the program and what they do after they graduate.
- (e) Permit multiple paths of demonstrating mastery of program objectives.
- (3) The objectives should be outcome- or result-oriented rather than statements of process, and they should be specific. This is contrary to the tradition schools, which are more accustomed to identifying "what we will do." This model is based on identification of "what will occur" because of what we do. Thus, "offering sound courses in core areas of the discipline" is too process-focused. We should instead be thinking about what the objectives are (in other words, why do we offer core courses? What are we trying to accomplish? How will students who take these courses be different?)

The presentation of objectives can follow either of the following two formats:

(1) Majors and programs can articulate broad goals each of which is followed by two or more specific outcomes objectives. This format is used by the General Education program.

### **Example of Outcomes Objectives Being Related to Broad Goals**

The school has identified four broad goals. The third goal is that "Students should develop the ability to communicate effectively." Related to this broad goal are three specific outcomes objectives:

- (a) An ability to write clearly using proper grammar, syntax, and punctuation
- (b) An ability to identify and use effective structure and devices for organizing written communication
- (c) An ability to give an effective oral presentation
- (2) Majors and programs can articulate specific outcomes objectives that are consistent with the district's goals but without a specific reference to them in the list of objectives. Had the General Education program simply listed all of its outcomes objectives without grouping them under specified goals, it would be an illustration of this second format.

Do statements (a), (b), and (c) in (1) express key standing objectives of the school's program? Yes. Are these objectives outcomes- or results-oriented and are they specific? Yes, they do express an outcome, and they are specific.

### **The Assessment Mechanisms**

Each academic major and program must identify a roster of assessment mechanisms that are used to assess the extent to which the objectives are met. , "A Partial List of Potential Assessment Mechanisms," should be helpful in identifying appropriate mechanisms. The following guidelines should be used in identifying and shaping the assessment mechanisms:

- (1) Assessment mechanisms should provide answers to genuine questions that we have. If we do not care about the results of questions that we ask, then we have designed a poor mechanism. This is an opportunity to obtain answers to questions that we have about the effects of our educational program on students.
- (2) Care should be taken that the assessment mechanisms used actually measure what we intend for them to measure. Assessment mechanisms should enable us to draw correct conclusions about the extent to which our objectives are being met.
- (3) Both quantitative (i.e., numerical data such as scores on comprehensive exams and number of students doing independent studies) and qualitative (i.e., more subjective information such as that which might be obtained by assessing student portfolios) should be used. Often, they nicely complement each other.
- (4) Assessment information should be collected from a variety of constituencies. For example, departments might focus on current majors and minors, students in the introductory class, non-majors taking electives in the department, recent or older alums, faculty in other departments, student services staff, etc.

- (5) While there is no magic number of assessment mechanisms that should be included, a sufficient number should be used to ably evaluate the variety of objectives that have been formulated. The number should not be so great as to be burdensome, but having only a couple of mechanisms are clearly not enough.
- (6) It is permissible and desirable to incorporate mechanisms that have been used in the past. We should build these into our programs.
- (7) Make the assessment program your own. Make it fit you, your departments, and your programs. Make it an expression of what is valued and what a quality public school is able to provide for its students.

### **Example of Assessment Measure (as Used in General Education)**

The General Education program includes the following types of assessment mechanisms:

- (1) From Current Students: Evaluation of students on specific examinations, exercises, and assignments in courses; course evaluation forms; focus groups; and essays on ethical values.
- (2) From Graduating Seniors: The Senior Exit Survey.
- (3) From Alumni: Alumni Surveys.
- (4) From External Reviewers and Institutional Data: Program Evaluation (the PEP process) and the General Education Annual Report.

### **Preparing the Annual Assessment Program**

An Annual Assessment Program must be conducted for each academic major and program. The Program involves annual development of a five-column grid that includes the following components:

(1) Column 1: Identification of an important goal derived from the Mission Statement, the Institutional Standing Goals, the Curriculum Goals, or the department's own mission statement.

## A Single Example from General Education

Mission Statement/Goal	Objective	Assessment Mechanism	Assessment Results	Program/Service Improvement
Students should develop the ability to communicate effectively.				

(2) Column 2: Identification of approximately three objectives that are selected from the longer list of objectives included in the second part of the Assessment Plan. These are the objectives on which assessment activity will be focused for the remainder of the year. The first three columns are completed in late summer-early fall. The objectives selected typically change from year to year.

### **Continuing Example for One Objective**

Mission	Objective	Assessment	Assessment	Program/Service
Statement/Goal		Mechanism	Results	Improvement
Students should develop the ability to communicate effectively.	An ability to give an effective oral presentation			

(3) Column 3: Identification of the assessment mechanisms that will be used to examine the selected objectives. These mechanisms are drawn from those listed in the third part of the Assessment Plan. Each mechanism should contain a criterion or threshold of success; this is the level at which faculty would conclude that the objective has been reasonably met. In the following example, "" and "" establish this threshold. The criterion should be set at whatever level is appropriate and meaningful. Institutional effectiveness seeks to encourage honest assessment and creative effort to make program improvements without fear of failure or personal retribution. Each major/program is evaluated on the quality of its mission statement, objectives, assessment activity, and effort to make program improvements.

### **Continuing Example for One Objective**

Mission	Objective	Assessment	Assessment	Program/Service
Statement/Goal		Mechanism	Results	Improvement
Students should develop the ability to communicate effectively.	An ability to give an effective oral presentation	80% of final presentations in Senior Symposium and departmental senior seminars rated 'adequate' or better on standardized form.  60% of respondents on alumni survey will respond 'very much' to the question: 'How much did your education here contribute to your personal growth in speaking effectively?'		

(4) Column 4: Identification of the results of the application of the assessment mechanism. This column describes what has been learned from each assessment mechanism about performance relative to the corresponding objective. It must contain information that allows determination about whether or not the criterion level has been reached. This column is completed whenever the results from the assessment mechanism are available or at the end of the year.

### Continuing Example (With Hypothetical Data in Column 4)

Mission Statement/Goal	Objective	Assessment Mechanism	Assessment Results	Program/Service Improvement
Students should develop the ability to communicate effectively.	An ability to give an effective oral presentation	80% of final presentations in Senior Symposium and departmental senior seminars rated 'adequate' or better on standardized form.  60% of respondents on alumni survey will respond 'very much' to the question: 'How much did your education here contribute to your personal growth in speaking effectively?'	70% of final presentations rated 'adequate' or better.  90% of respondents reported 'very much.'	

(5) Column 5: ("Closing the Loop") Identification of efforts to make program/service improvements based on what has been learned and reported in column 4. If assessment shows that an objective is being met, and no one has ideas for doing better, the fifth column simply reports that. When assessment shows that an objective is not being met and/or ideas are suggested for doing better, then the fifth column reports the changes designed to enhance program performance. This column is completed in late spring-early summer.

### Continuing Example (With Hypothetical Data in Columns 4 and 5)

Mission	Objective	Assessment	Assessment	Program/Service
Statement/Goal		Mechanism	Results	Improvement
Students should develop the ability to communicate effectively.	An ability to give an effective oral presentation	80% of final presentations in Senior Symposium and departmental senior seminars	70% of final presentations rated 'adequate' or better.	A meeting of Senior Symposium instructors held to discuss the issue. More attention will be

Essentially, the whole purpose of a program of institutional effectiveness and of all assessment activity is contained in the fifth column. Institutional effectiveness is a systematic process for thinking about, studying, and making efforts to improve programs and services.

### **Integrating Assessment in Planning and Budgeting**

The Annual Assessment Program will typically produce plans and activities designed to improve the program or service and to increase the likelihood of meeting the designated objectives. The work involved in making these changes should logically be incorporated into the department's goals for the ensuing year. Program/service changes that require financial support should be incorporated into the department's budget request. These items receive prompt attention.

Each academic major and program must identify a roster of assessment mechanisms that are used to assess the extent to which the objectives are met. The following guidelines should be used in identifying and shaping the assessment mechanisms:

- (1) Assessment mechanisms should provide answers to genuine questions that we have. If we do not care about the results of questions that we ask, then we have designed a poor mechanism. This is an opportunity to obtain answers to questions that we have about the effects of our educational program on students.
- (2) Care should be taken that the assessment mechanisms used actually measure what we intend for them to measure. Assessment mechanisms should enable us to draw correct conclusions about the extent to which our objectives are being met.
- (3) Both quantitative (i.e., numerical data such as scores on comprehensive exams and number of students doing independent studies) and qualitative (i.e., more subjective information such as that which might be obtained by assessing student portfolios) should be used. Often, they nicely complement each other.

- (4) Assessment information should be collected from a variety of constituencies. For example, departments might focus on current majors and minors, students in the introductory class, non-majors taking electives in the department, recent or older alums, faculty in other departments, student services staff, etc.
- (5) While there is no magic number of assessment mechanisms that should be included, a sufficient number should be used to ably evaluate the variety of objectives that have been formulated. The number should not be so great as to be burdensome, but having only a couple of mechanisms are clearly not enough.
- (6) It is permissible and desirable to incorporate mechanisms that have been used in the past. We should build these into our programs.
- (7) Make the assessment program your own. Make it fit your school and programs. Make it an expression of what is valued and what a quality educational institution is able to provide for its students.

### **Example of Assessment Measure**

The General Education program includes the following types of assessment mechanisms:

- (1) From Current Students: Evaluation of students on specific examinations, exercises, and assignments in courses; course evaluation forms; focus groups; and essays on ethical values.
- (2) From Graduating Seniors: The Senior Exit Survey.
- (3) From Alumni: Alumni Surveys.
- (4) From External Reviewers and Institutional Data: Program Evaluation (the PEP process) and the General Education Annual Report.

## Appendix K

### **Case Studies**

### **Session Two**

Ms. Simpson is a member of the faculty at Strom Thurmond Middle School. The students are grouped by grades, but within the grades, a team of teachers cooperates to develop interdisciplinary lessons. Individual members of the team have been assigned teaching responsibility for the areas of English, mathematics, science and social studies. Ms. Simpson has decided to evaluate her area of responsibility in the eighth grade English section of the instructional program. Her evaluation includes the following:

- a. Administration of a standardized English achievement test in September and March. (This will most probably be the Measure for Academic Progress [MAP]. She plans to compare the pre-test results and the post-test results to the national norms for the test.)
- b. Monthly interviews of a sample of her class to determine student reaction to the English portion of the instructional program.
- c. Keeping a record of student progress so their potential for high school performance can be assessed for English Tech, regular English or Honors English.
- d. Observations by an outside observer monthly, using a scale she has devised to record students during class discussions.
- e. Comparison of the performance of Ms. Jackson's class on the standardized tests with performance of eighth-grade classes at other junior high schools in the district.

Using what you have learned about the different approaches, determine if Ms. Simpson has a viable evaluation design. What questions should she be addressing? Comment on the organization of her evaluation. Could she improve the design?

### **Session Three**

- 1. Your school is to be visited by the Southern Association of Colleges and Schools. What issues should be addressed? Are there any issues that could be missed by a SACS team in a short three-day visit? What information should be available for the team to review? Do you think that a SACS team or state department team could make a difference in your school? Why or why not?
- 2. Scott Elementary School has started a volunteer program in which parents are encouraged to help out in the classroom. The program goal is not only to provide the teachers with help but also to involve the parents more in school and their children's education. The principal is trying to boost the learning of the low-performing students in the school by involving the parents in their children's education through volunteering in the classroom. How would this strategy work into the evaluation plan?

## Appendix M

## Instructions for Using Smarthinking

Smarthinking offers FREE online tutoring 24 hours a day, 7 days a week. You can connect with a highly qualified tutor in a live, interactive whiteboard environment to get help with writing, math, statistics, accounting, economics, biology, chemistry, physics, and more.

**Note:** To create your FREE account in Smarthinking, you must access MyCampus and follow the steps below.

### **Getting Started**

- 1. Log on to <a href="https://mycampus.swu.edu">https://mycampus.swu.edu</a>.
- Click on the **Tutoring** icon under Student Links to go to the Center for Transformational Learning (CTL) page.
- 3. Click the **Smarthinking** link in the blue sidebar on the left-hand side of the page.
- 4. Click on **New Smarthinking Web link** in the box on the bottom right-hand side of the screen.
- 5. When the Smarthinking page opens, create a personal account with your own login and password.
- 6. Use this login and password whenever you want to access Smarthinking.
- 7. Once you have created your own account, you may go directly to <a href="www.smarthinking.com">www.smarthinking.com</a>.

### **Additional Information**

There are many tutoring options available on the Smarthinking Website. Each option has a "Tell Me How" feature. Use the dropdown menu next to each option to choose what you would like to do.

The "Submit Your Writing" option provides detailed feedback on your writing assignments. Assistance is available for all types of writing from a simple paragraph to a research paper. Use the dropdown menu to choose the appropriate option for your submission. Documents must be in a .doc, .rtf, or .txt format to upload. A tutor will read your paper and will send feedback to your Smarthinking inbox within 24 hours. Please note that the tutors will not edit or rewrite a paper for you.

If you need help using Smarthinking, click on the **SMARTHINKING Student Handbook** in the Customer Support & FAQ area of your homepage or contact Customer Support at <a href="mailto:support@smarthinking.com">support@smarthinking.com</a> or (888) 430-7429 ext. 1 (Monday-Friday, 8am – 6pm ET). For on campus help, call Martha Mishoe at (864) 644-5036.

January 2011

## Appendix N

## **Turnitin.com Directions**

**Turnitin** is the world's leading academic plagiarism prevention solution & digital assessment tool. It helps educators and students take full advantage of the internet's educational potential.

Students should follow the steps listed below to access and submit an assignment.

- 1) Go to www.turnitin.com.
- 2) Click "create a user profile" in the upper right-hand corner of the screen.
  - You will need to provide the following information:
    - \* a valid email address
    - \* a 6-12 digit password
    - \* your name, country, and state
    - \* type of user (student)
    - \* your agreement to the user license
- 3) Once profile is set, click "start class enrollment wizard" in the lower right-hand corner of the screen.
- 4) When enrollment wizard begins, you will need to enter a **Class ID** number and **Class Enrollment Password**. This information is different for each specific class and should be obtained from your instructor.
- 5) When the class information opens, find the appropriate assignment and press the submit button adjacent to it. Next, you will browse your hard drive or portable memory device for the file to submit. Select the file and submit.

(Note: Assignments must be submitted by the day they are due or you lose your ability to submit the assignment.)

If you have any problems with using Turnitin, you can access a student tutorial using the **Student Help** button at the top of the page or contact **Martha Mishoe** at **644-5036**.
